Product checked for safety:

Member of the network

The high quality and safety features of our products have been tested by TÜV Rheinland Product Safety GmbH. The GM seal (checked medical product) is proof of the adherence to requirements for the relevant standards and the test of production conditions.

Examinations at the Institute for Virology at the Philipps University in Marburg from 01.11.2004 confirm the effectiveness of the VIROXX-QUADRO technology (complete neutralisation of SARS Corona virus due to the use of a bioclimatic air sterilizer)

Our product conforms with the European norm EN 60601 and adheres to the guidelines for medical products 93/42/EWG.
